“Horizon 2020: Investing in the common good”

Treating knowledge as a public good in EU research and innovation

Horizon 2020 is the EU’s framework programme for research and innovation. This conference will explore how EU funding can promote economically and socially sustainable innovation models with the aim of more openness, easier accessibility and higher result-oriented efficiency. The conference will examine what it means to treat knowledge as a public good in policy making and how this should affect future EU funding schemes for research and innovation.

Date: 30th November
