Signature of applicant: .....

Date: .....

Identification and Resolution of Conflicts of Interest for HAI Europe Association Members

Health Action International is an independent global network working to increase access to essential medicines and improve their rational use. Therefore, a condition of membership is independence from influence by the pharmaceutical industry.

The intent of this document is to identify and resolve any potential membership conflict of interest.

Disclosure of Financial Relationships

The existence of any financial or other beneficial relationship with pharmaceutical or medical devices industries that an individual or organisational member has, or has had within the previous twelve months **[five years in the case of new members],** must be disclosed to the HAI Europe Association Board.

Identification and Resolution of Conflicts of Interest

Should a potential conflict of interest be identified, the individual or organisation will be contacted and asked for clarification and/or additional information. Any ambiguous situation will be discussed further with the Chair of the Association Board and Coordinator of HAI Europe.

The HAI Europe Association Board has the right to exclude members because of conflicts of interest that may compromise the independence of members. Incomplete or misleading submission of requested information may also lead to exclusion from membership.

2014 DISCLOSURE OF POSSIBLE CONFLICT OF INTEREST RELATIONSHIPS

IN THE PREVIOUS 5 YEARS (NEW MEMBERSHIP APPLICATION)

I (please print name clearly), ... am completing this form

[ ] as an individual member [ ] on behalf of my organisation

I/my organisation receive funding from the following sources (please list completely):

.....

.....

Please tick as appropriate

A. [ ] To the best of my knowledge, neither I, nor any member of my immediate family, have any financial relationship or other beneficial interest with a pharmaceutical company or any proprietary entity producing health care goods or services that might constitute a conflict of interests.

B. [ ] I have, or an immediate family member has, a financial relationship or other beneficial interest with a pharmaceutical company or another proprietary entity producing health care goods or services that might constitute a conflict of interests.

If you tick B above, please indicate the relationship(s) below. If you are uncertain about any potential conflict of interest, or believe you may have a conflict of interest not listed, please note it in the table below.

Self	Family Member	Self	Family Member
[ ]	[ ] Directorship	[ ]	[ ] Accepting gifts and promotional items
[ ]	[ ] Research Grants		
[ ]	[ ] Educational Grants	[ ]	[ ] Stock/Bond Holdings (excluding mutual funds)
[ ]	[ ] Speakers' Bureaus	[ ]	[ ] Employment
[ ]	[ ] Ownership	[ ]	[ ] Corporate Partnership
[ ]	[ ] Consultant for Fee	[ ]	[ ] Accepting commercial advertising in publications
[ ]	[ ] Free Travel	[ ]	[ ] Other (please note in table below)

Please indicate the names of the pharmaceutical or medical devices companies or other organisations with which you have a financial relationship and which may present a conflict of interest. Please also specify the nature and extent of any benefit.

Name of company or organisation	Nature and extent of benefit

I declare that this information is correct and no other competing interests are known to me. I undertake to inform the HAI Europe office of any change in these circumstances.

This document will be kept in the HAI Europe office and made public to every interested HAI member only by request. This disclosure of possible conflicting interests will be updated annually by each member of the HAI Europe Association.

TOPICS OF INTEREST FORM

2014

Name …….. Date: ……

I am interested in the following of HAI's 3 main thematic priorities:

Please indicate your interests by ticking the appropriate boxes below

1. Increase access to essential medicines

☐ **Promote EU policies to support equitable access to medicines and sustainable health systems**

☐ **Advance EU actions on exploring new models of medical innovation**

2. Rational Use of Medicines

☐ **Support patient and user safety by highlighting the link between access to safety data, objective information and safe medicines use**

☐ **Encourage appropriate prescribing to support cost-effective, safe and high quality healthcare**

3. Democratisation of Medicines Policy

☐ **Advance EU policies that are responsive and accountable to public health needs**

☐ **Support the next generation of health advocates to align European policies and decision-making with wider public health and societal interests.**

4. Other pharmaceutical issues
