

Wilbert Bannenberg

Member

Wilbert is a public health physician with over 30 years of experience in improving pharmaceutical systems in developing countries. He has completed more than 100 missions related to access to medicines, regulatory support or national medicines policy as a pharmaceutical consultant. For the last 12 years, he has worked in the [hera](#) group. From 2016, he will focus on teaching, NGO support and supporting medicines-related campaigns. Wilbert is the founder and moderator of E-drug, a network that brings together over 4000 healthcare professionals, researchers and policy makers. He was a HAI Europe Association Board Member from 1988 to 1996 and elected to the Board in 2014.
